TechFlow Inc. - Executive Financial Dashboard

Net Profit $52.2m: 10.1% Below Budget

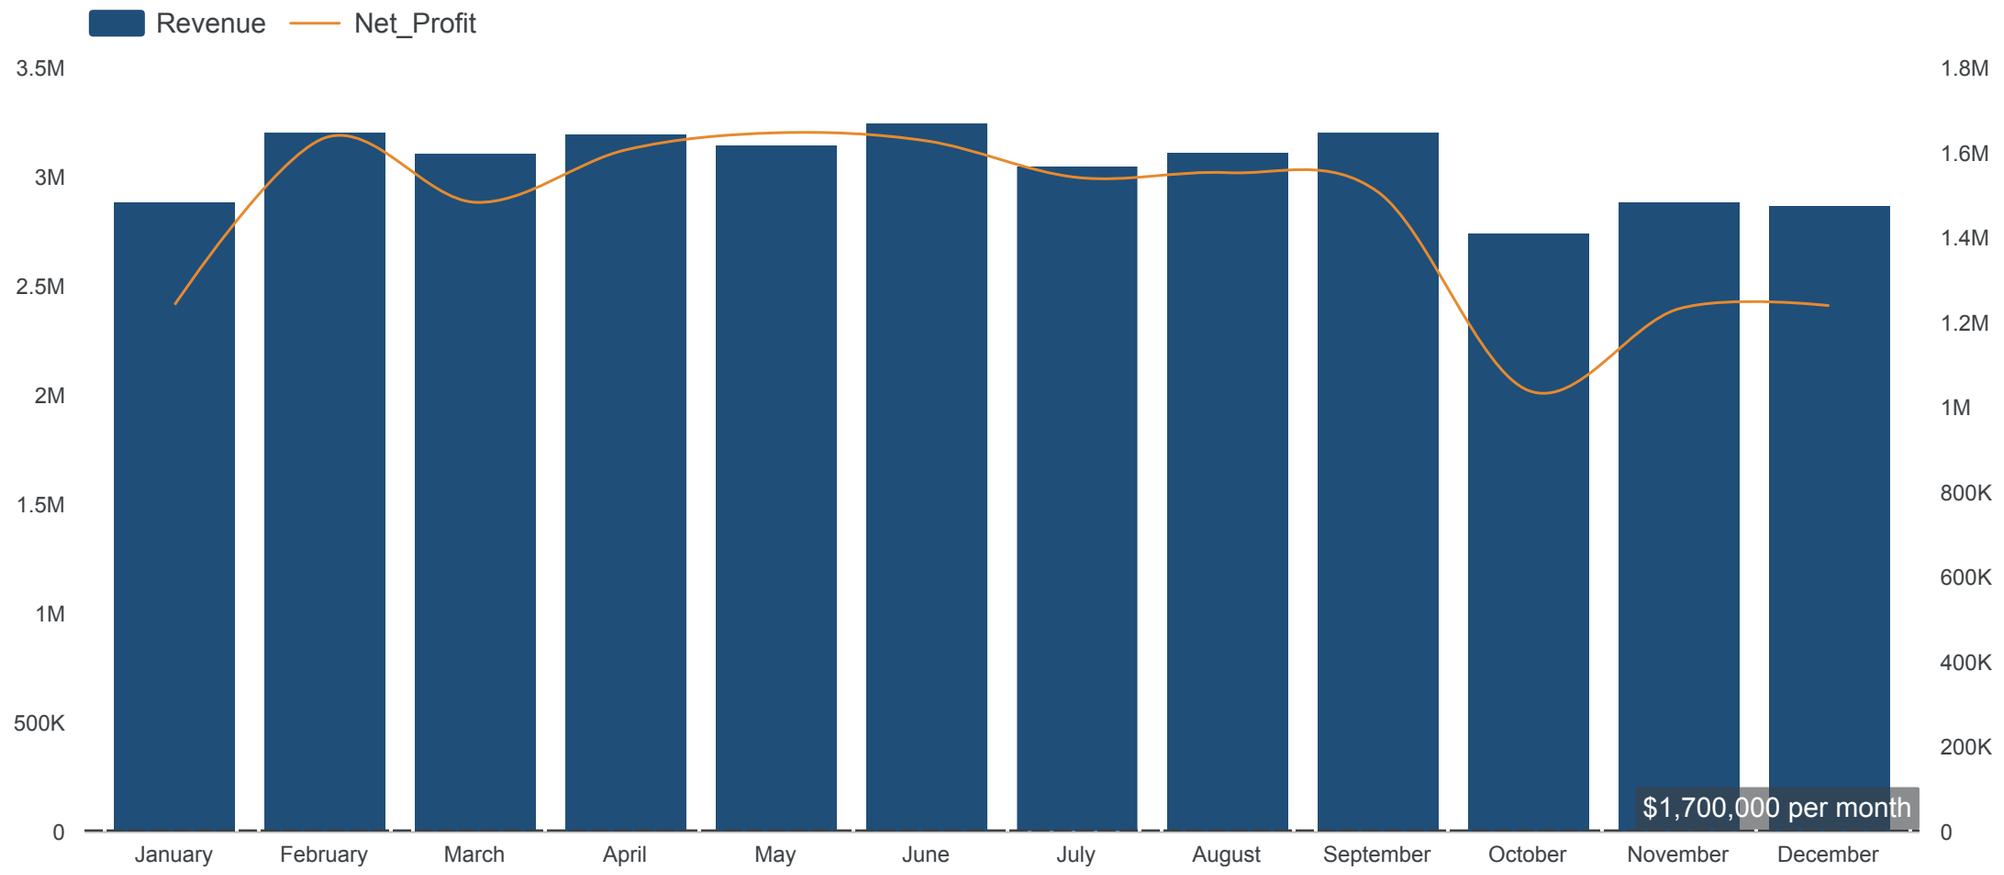
Margin compression despite strong revenue growth

Select date range

Department

Net Profit	Budget Variance %	Profit Margin	Revenue
52.2M	-0.1	47.4%	110.2M

Revenue grew 12% but profit margin compressed from 42% to 38%



Revenue and Profit Trends

Top-line performance has remained stable, while profitability trends should be monitored more closel

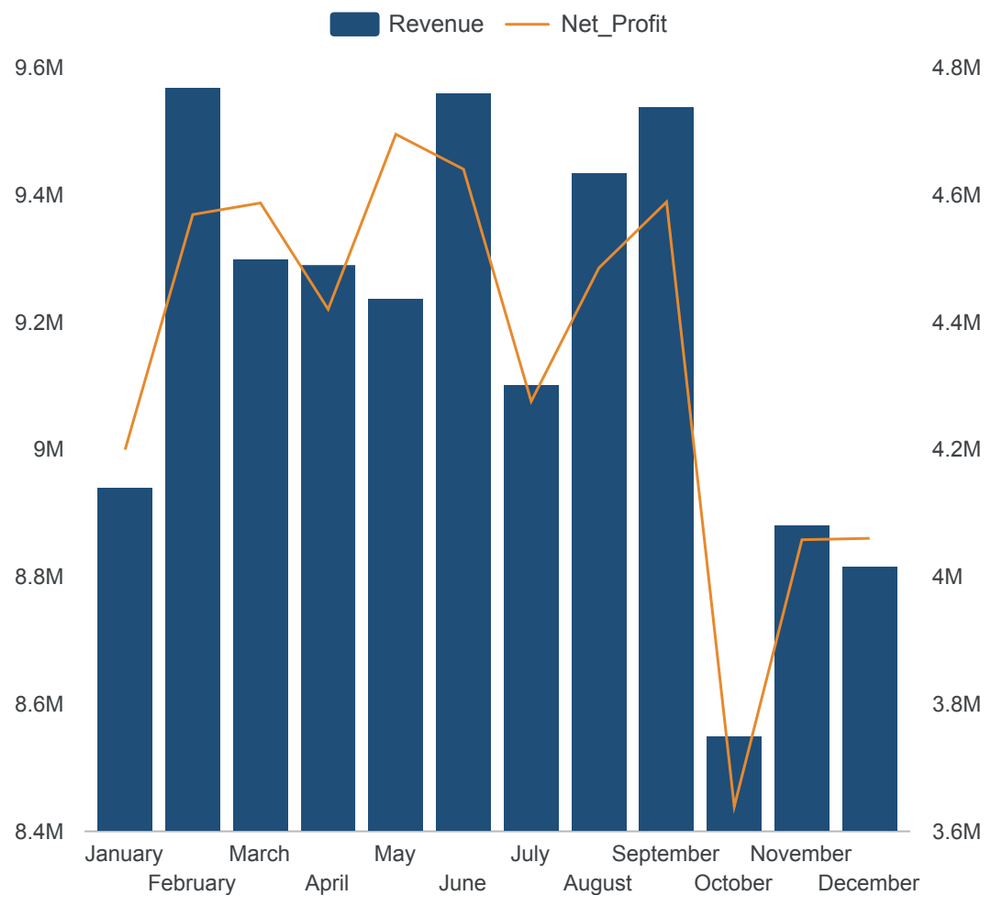
Select date range

Revenue
$110.2M

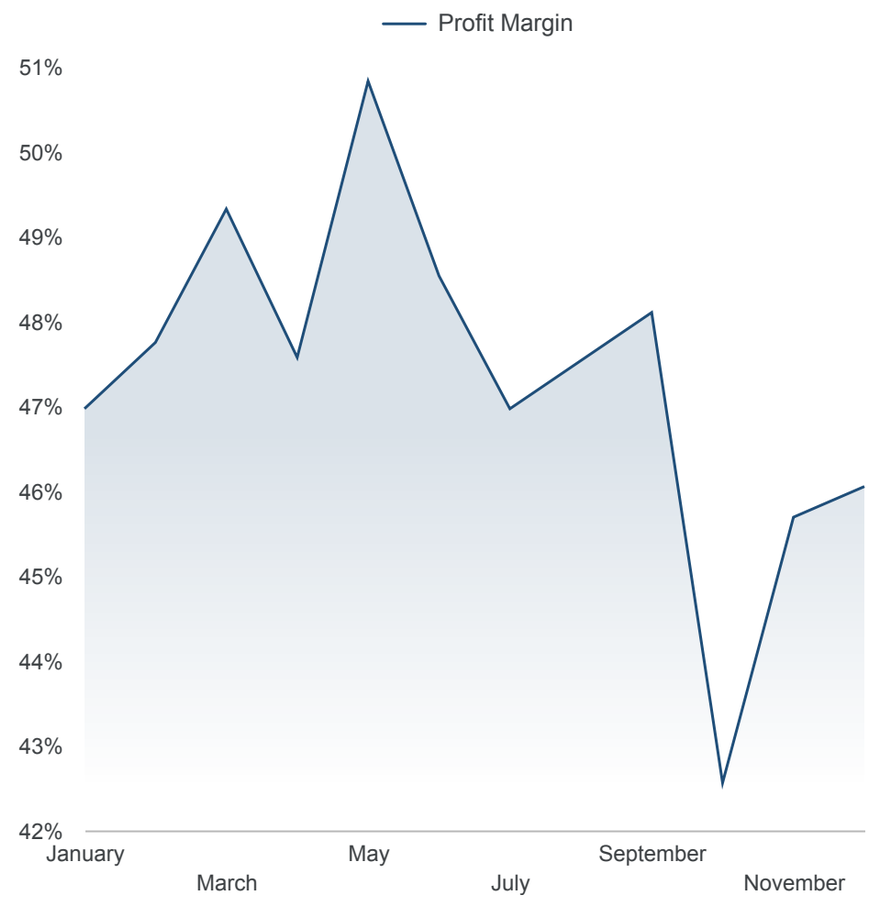
Net Profit
$52.2M

Profit Margin
47.4%

Profit is growing faster than revenue



Profit Margin over time



Strong performance 2023-2024 driven by operational efficiency. 2025 shows signs of margin compression.

Budget vs Actual Variance

Revenue is below target by 10.1%, with the largest shortfalls concentrated in Sales and Engineering

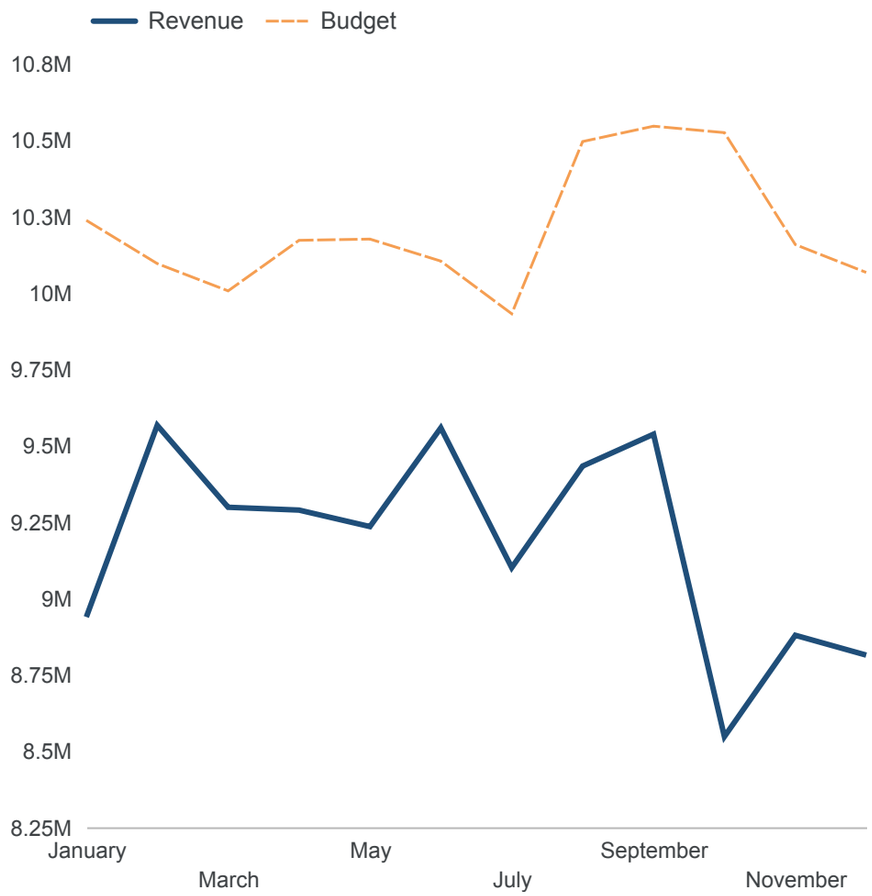
Select date range

Department

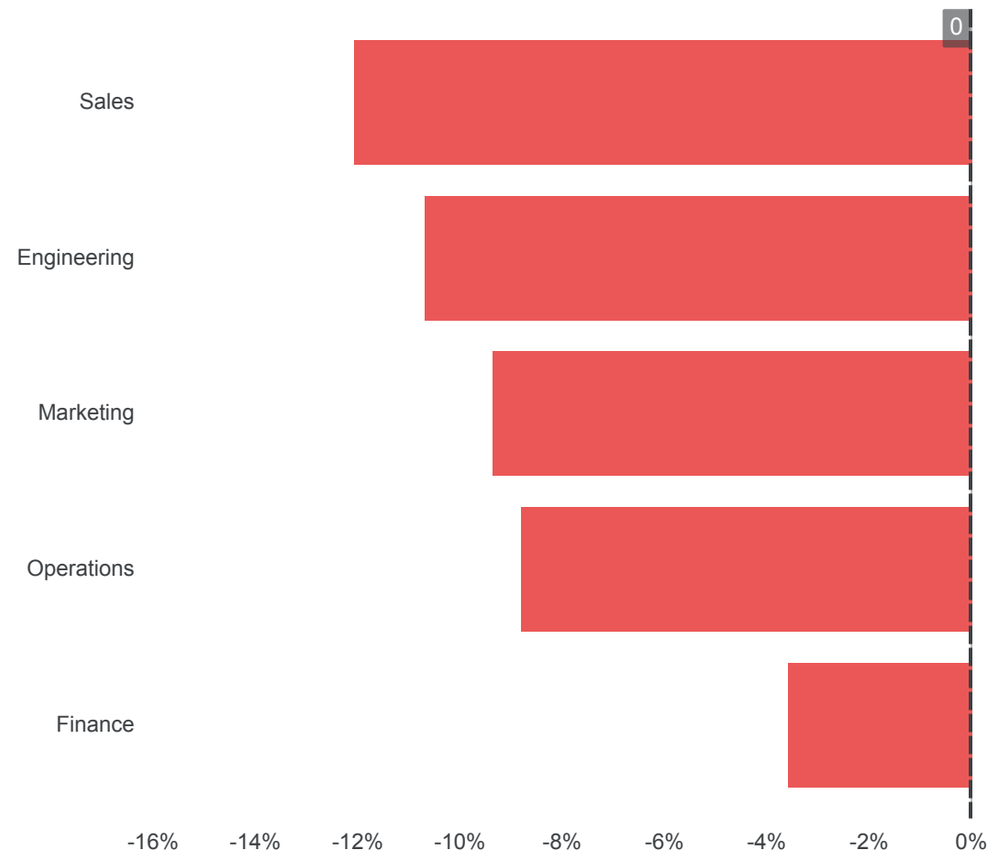
Revenue Variance %
-10.1%

Revenue Variance $
-12.3M

Revenue is consistently below budget targets



Budget shortfall driven by Sales and Engineering



The issue is systemic, not isolated, indicating either overly aggressive budgeting or broader company performance challenges.

Cash Flow & Liquidity Position

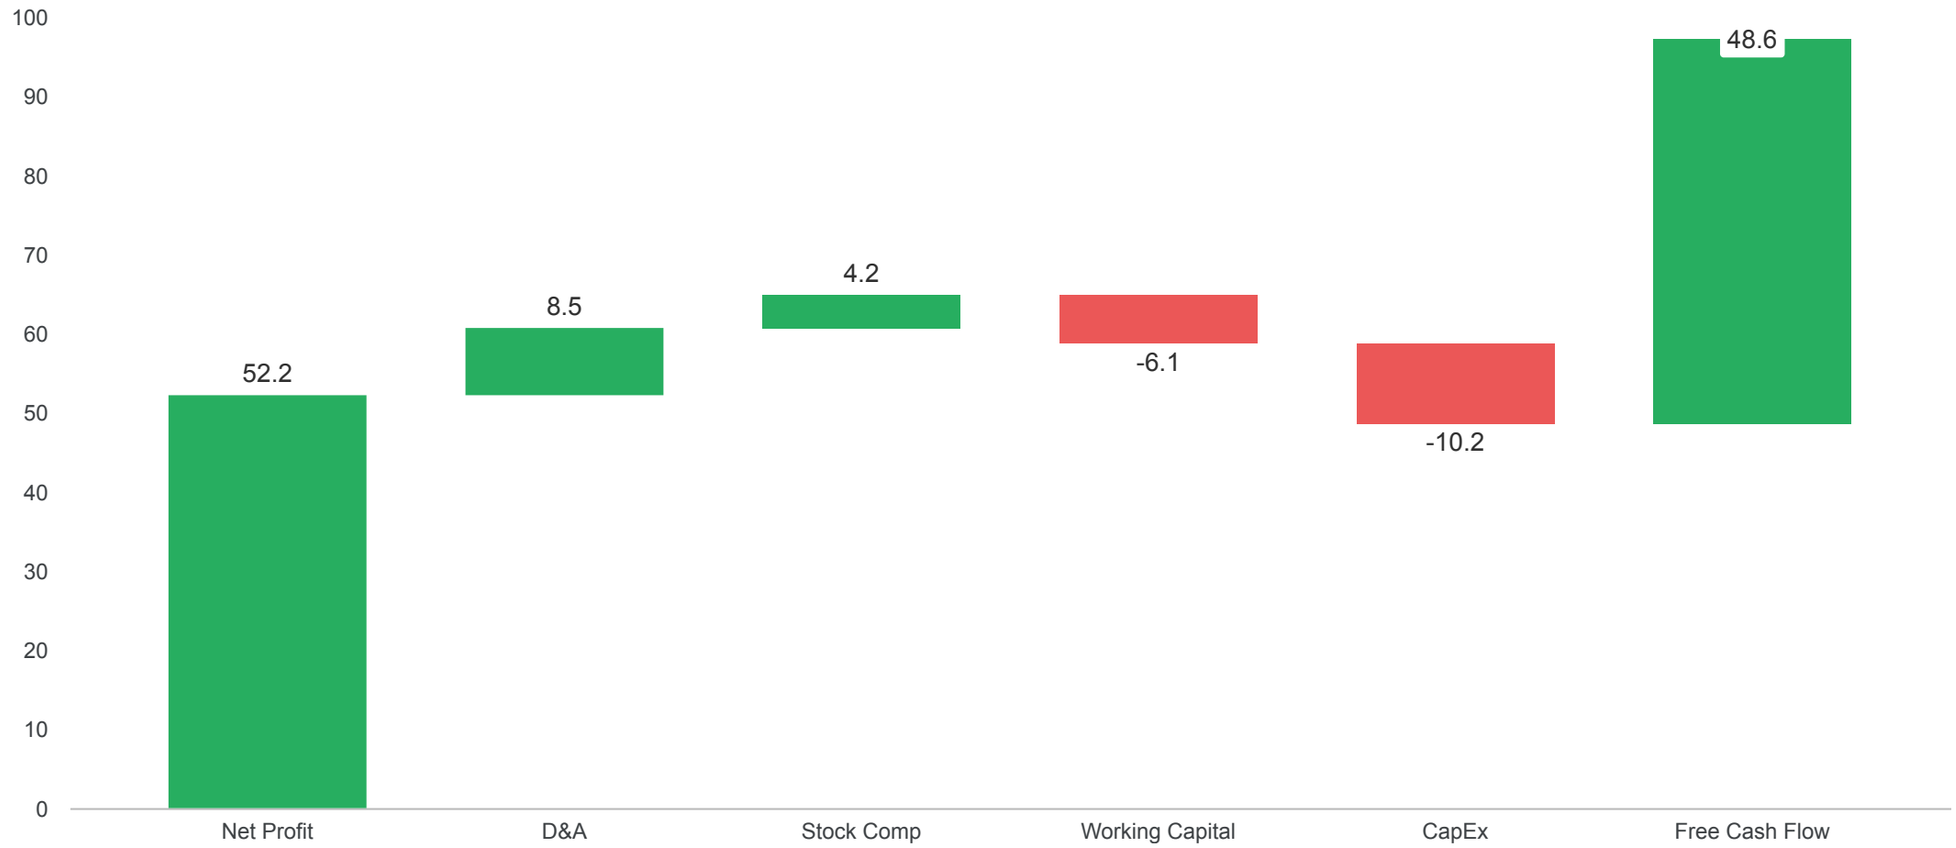
Cash generation remains resilient despite pressure on profit

Gross Margin
70.3%

Operating Cash Flow
54.9M

Free Cash Flow
49.3M

Cash Flow Bridge: Net Profit to Free Cash Flow



Liquidity remains stable as strong operating cash flow and disciplined capital spending offset weaker earnings.
